ZURN
Introducing the Zurn (HEU) High Efficiency Urinal
Engineered Water Solution System "Paired Performance".
Ultra low water consumption, uses only 1/8th gal. per flush (1 pint).
An 85% water savings compared to standard 1.0 gal. urinal flush.
Average annual savings between 25000-30000 gal. per fixture.
Sensor flush valve with Smart Technology-sanitary hands free
operation. 200,000 cycles or 3 year battery life on 4 "AA" batteries.
High quality vitreous fixture with patent pending design features.
Ph 1-716-665-1132 or visit our website @ www.zurn.com
Thank you for saving water
